E-Safety Parenting Sessions

"Provided useful information on site age limits, the types of sites that kids are using today, as well as security settings so we can ensure our children are protected as much as possible. Highlighted the common issues with each sites and just raised general awareness." DK

"I find the online E-Safety updates so informing and helpful, as technology is the future for our children And the probably know more than us so most of the time there apps and things I've never heard of .Although it makes me feel old, it also makes me feel reassured that I'm doing the right things and know I am on top of stuff" JA
